I will say this novel helped to place my faith back into Carl Weber, because he step out of his character a little with this, and I like that It also open my eyes to Mary B style and writing I m looking forward to reading of her work The ending has me looking for the squel to this one for Carl Weber, and I ll research Mary B to make sure I ll start at the beginning of this series The book is for adults because of it s theme, and issues, which involves, kidnapping, rape, lots of sex, and one crazy chick Both writers did a good job with their characters It shows the truth about how men really don t have a chance in hell against women, unless she s weak.food for thought.All in all, it s a good read, it did take me a while to get through it, but I ll blame that on me not having the time to be still long enough to do so.Lord WilliamsOur Books Literary Group I ve given this novel a 4 star rating but it s like 3.5 The book is well written and interesting, but the ending was subpar and unrealistic, in my opinion, there the book left me unsatisfied And I wasn t pleased when I finished it So it felt like a real waste of my time I also think people should read Darius Jones by Morrison before reading this book She Ain t the One gives away too much of that story without telling readers they re connected Really frustrating. I read this book in one day, surprisingly I think I was intrigued with the way Ashlee went from being a mild mannered woman to a crazy and deranged woman Jay didn t stand a chance and he was so sex crazy that his mind was blown away because his ego got the best of him once he realized he had hit that thang the G spot blowing Ashlee s mind he was done She could have done anything and this nut would

have gone for it, which is what happen and he ending up losing everything in the end A lot of sex going on is not what a single sista need when she is all alone and without anyone to release all of that goings on that she is reading Oh this book was off this chain, Ashley is super crazy but FYI before you read this book you must Read Carl Weber s Married Men and Mary B Morrison s series starting from Soul Mates Dissapates The reason why is because they both put characters in this book that r from their previous books, also you will not understand why people act a certain way nor will you understand how they got to that point This book is awesome. I expected from both authors and perhaps the collaboration is what threw their normal mojo off Page after page consisted of sex than meaningful conversation and I was ready to burn the book when the antagonist she devil threw another female off the cruise ship with absolutely no repercussion The clincher for me was the antagonist asking her lover to give her another g spot orgasm So the next time you re in the mood, ask your lover using those exact words, Can you give me a g spot orgasm Awkward I don t even know where to start about this read but Carl Weber and Mary B did their thing Jay went from being a player to trying to settle down too quick Ashlee truly took being crazy to an all new level The lengths she decided to go to keep a man was beyond crazy There were so many signs that Jay neglected I wasn t sure how much he had to deal with before realizing Ashlee wasn t too stable A lot of red flags should ve gone up after meeting Ashlee s mother Tracy was cool but at one point I felt like she might have a hidden motive Then the way she so easily believed any lie Ashlee told spoke volumes That last scene proved just how crazy Ashlee could get when things didn t go her way I bet Jay wished he had thought on the situation before agreeing with Ashlee s requests It s messed up how easily one can lie to destroy ones life because they no longer want them Better yet I was trying to understand why no one who had dealt with Ashlee didn t speak on her condition No matter how many things occurred, Ashlee only proved she ain t the one and probably never will be. This book was wild This was a great collabo with Carl Weber and Mary Morrison I remember the character Ashlee from another book by Mary Morrison Ashlee was a truly insane woman I can t say I like the ending because I was hoping Jay would survive Ashlee s

craziness This is one time I m looking forward to a sequel
Maybe these two will team up again to deliver one. Ugh this
was silly and predictable as hell Hay ted it From New York

book was amazing from the beginning to the end It left me
searching at the end of the book for details on a sequel When I
first purchased the book, I was trying to figure out how two
authors would write a book such as this one I still dont know
which author had what voice but its an amazing book either
way My favorite part was when Ashlee tried to make it seem
like darius raped her I would reccomend it to all of my friends
Throught the story, Ashlee was obsessed with Jay When he
met her he felt a strong attraction They dated and spent alot of
time together But when he bumps into his ex that he has been
searching for, he finds that she had his child He starts
becoming a father figure in his life and starts picturing himself
with her again, hoping that they could be a happy family and
make things right He does everything to get her back and
eventually they get back together, leaving Ashlee alone and
hurt She kidnaps their child hopeing it would change things, or
make the mother, Tracy, leave Jay so that she could be with
him again.
